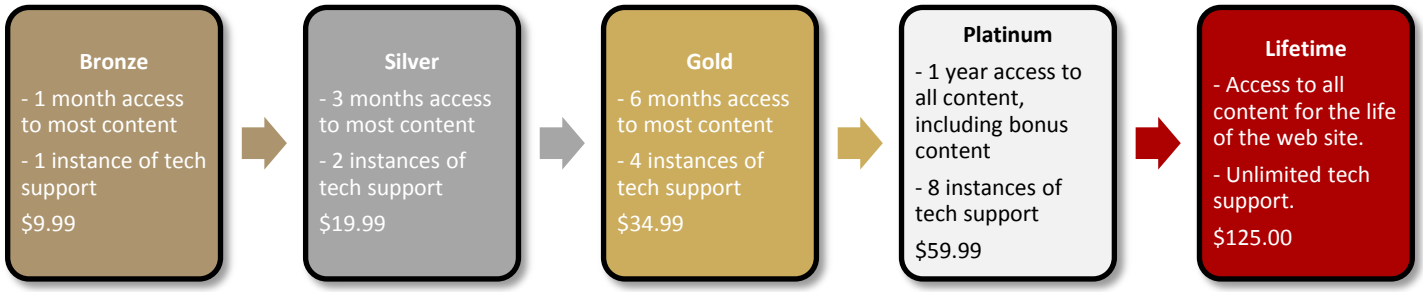
Select a membership extension for Joomla

What are your criteria?

- Are you going to have different levels of membership? If so, how many levels?
- Do different membership levels allow you different lengths of subscriptions, content, or both?
- Do you want, or not want, or want the user to be able to decide upon, automatic renewal? Do you want the system to automatically notify users when their account is about to expire?
- What kind of payments do you need to be able to take?
- How much are you willing to pay for the extension? Will you need technical support? How long do you want to be able to download new versions and patches for?

Describe your subscription plans

Here's an example:



Select an extension

Extension name	Cost	Membership levels	Automatic renewal	Email alerts	Payments	Support and Upgrades
